Dear Resident or Business Owner

Consultation – Bus Stop Relocation – 1112-1116 Barrenjoey Road, Palm Beach

Development consent has recently been granted through the Land and Environment Court for a shop top housing development at No.s 1112-1116 Barrenjoey Road. One of the conditions of development consent requires the developer to seek approval for the relocation of the bus stop to a new location outside No.1102 Barrenjoey Road. The developer has, in liaison with TfNSW and it's bus services contractor Keolis Downer prepared a concept plan for the required work.

While Barrenjoey Road is a State Road under the management of Transport for NSW (TfNSW), and they would ultimately be responsible for approving any required changes to the signposted parking and Bus Zone restrictions, Council would like to provide an opportunity for the community to provide feedback on the proposed changes.

A concept plan is enclosed with this letter for your information. This plan is indicative only and may be subject to change following consideration of feedback.

The project team would like your feedback on this proposal by scanning the QR code or typing the following URL into your browser <https://northernbeaches-transport-network.app.oneblink.io/forms/14194>. You will then be directed to an online form. Comments close on 4 May 2025

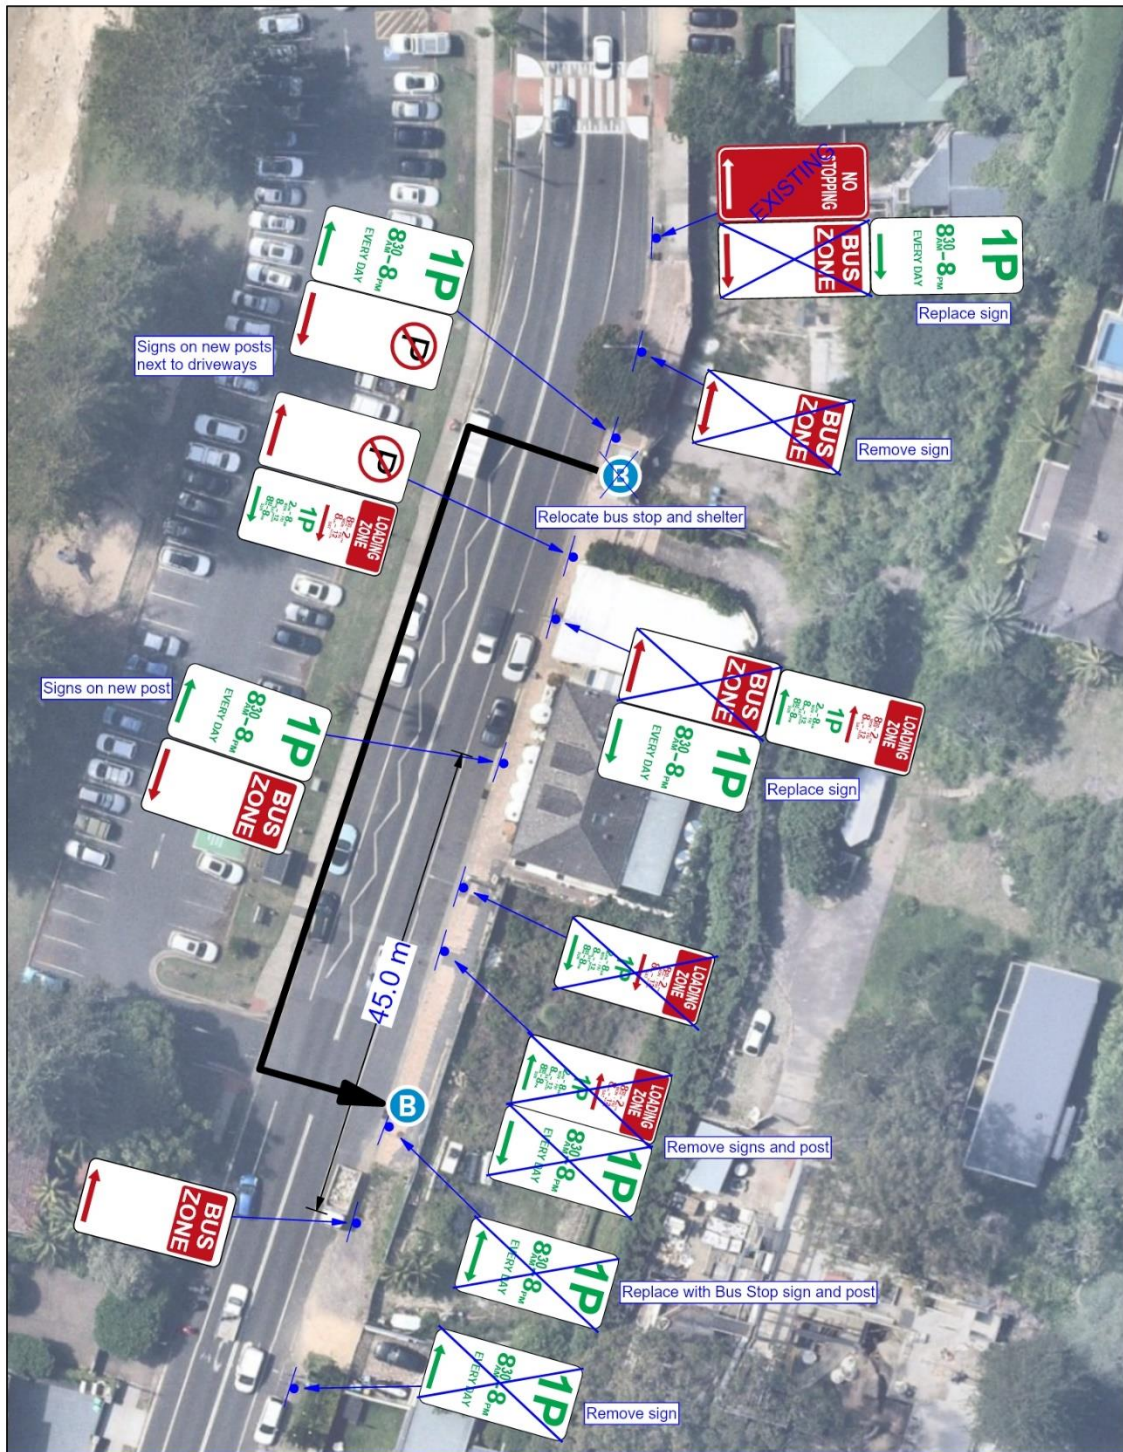

For your response to be considered include your name and address. Please note that individual responses to submissions will not be given. Once feedback has been reviewed, the feedback will be provided to TfNSW and a report noting their decision on the matter presented to the Local Traffic Committee for the information of the Committee.

Should you require further information regarding this notification, please contact Linji Chen at 8495 5633.

Yours faithfully

James Brocklebank
Traffic Engineering Coordinator
Northern Beaches Council
